

Large Capacity Box Scrapers

CBS-84

Our line of large capacity box scrapers are designed to offer farms, ranches and animal producers a lower cost, maintenance free alternative to more expensive construction grade scrapers.

Perfect For:

- Corral Cleaning
- Pig Barn Cleaning
- Farm Road and Driveway Maintenance
- Poultry Barn Cleaning
- Horse Arenas
- Light Land Leveling

New for Spring of 2014!

Our new CBS Series Corral Box Scraper is designed with a heavy duty 4" square tube hitch frame for durability

This box scraper is ideal for general work around cattle, poultry and pork operations for barn and corral cleaning, land leveling and material movement. It is low maintenance and trouble free. Designed with a three point hitch mount for **45 - 120 horsepower tractors**, this series comes in four widths to fit any need your operation might have.

The CBS Series is constructed using 4" square tubing, 1/4" moldboard, and 3/8" endplates. The formed moldboard keeps material flowing and reduces drag during operation. Also, the heavy duty cutting edge is reversible for many hours of operation.

Skid shoes for height control are optional.

The PHB Series is an extra capacity box scraper designed for smaller tractors.

This box scraper is ideal for general work around poultry and dairy operations, as well as, barn and feed lot cleaning and light land leveling. It is a low cost alternative to heavier construction grade scrapers. Designed for **30 - 70 horsepower tractors**, this series comes in two widths.

The PHB Series is constructed using 4" square tubing. End plates are 1/4" and 36" deep. The three point hitch fits category I & II. The rolled moldboard keeps material flowing and reduces drag during operation. Also, the heavy duty cutting edge is reversible for many hours of operation.

Skid shoes for height control are optional.

PHB-96

Four CBS Series size models available.

Model #	Width	Hitch	Load Capacity	Weight
CBS-84	7'	CAT I & II	36 CU. FT.	725#
