

DS1 Series Wheel Lift Drag Scrapers

Our new DS-1 Series is a drag scraper designed for road and driveway grading and general land leveling.

This versatile hydraulic drag scraper makes maintenance of roads and driveways an easy task. **Designed for 35 - 120 horsepower tractors**, the hydraulic control allows for smooth land leveling for any project from farms and ranches to construction and general contracting. A hydraulic tilt option is available when road crowning and finer grading applications are required.

Perfect for:

- Road Building and Maintenance
- Heavy Duty Land Leveling
- Ditch and levy drainage maintenance
- Construction lot preparation

End plates are 3/8" thick and the moldboard is 1/4". The formed moldboard keeps material flowing and reduces drag during operation. Also, the heavy duty cutting edge is reversible for many hours of operation. 3" X 8" hydraulic cylinders are standard.

Non-tilt models.

Model #	Width	Hitch	Load Capacity	Weight
DS1-96	8'	Draw pin	44 CU. FT.	1300#
DS1-120	10'	Draw pin	50 CU. FT.	1,450#
DS1-144	12'	Draw pin	60 CU. FT.	1,600#

Tilt models.

Model #	Width	Hitch	Load Capacity	Weight
DS1-96T	8'	Draw pin	44 CU. FT.	1450#
DS1-120T	10'	Draw pin	50 CU. FT.	1,600#
DS1-144T	12'	Draw pin	60 CU. FT.	1,750#
